PROFESSIONAL SUMMARY

Passionate and motivated Information Technology student with a strong foundation in software development, programming, and problem-solving. Eager to apply technical skills, learn emerging technologies, and contribute to innovative projects in a dynamic organization. A quick learner, adaptable team player, and committed to delivering high-quality solutions while continuously growing as a software professional.

SKILLS

Languages: Java, SQL

Machine Learning: LSTM model building, model training & evaluation, data preprocessing on time-series/CSV data

Tools & Platforms: GitHub, VS Code, MySQL

Core Strengths: Problem Solving, Communication, Decision Making

PROJECTS

Epilepsy Seizure Detection *Python, LSTM (Deep Learning), EEG/CSV Data Processing*

- Built and trained an LSTM deep learning model to classify seizure vs. non-seizure events from EEG time-series data.
- Cleaned and processed raw EEG CSV datasets for model training and evaluation, achieving high classification accuracy.
- Applied pattern-recognition and time-series analysis techniques directly relevant to AI-driven product features.

Task Manager *PHP, MySQL, HTML, CSS*

- Built a full-stack task management web app end-to-end — frontend UI, backend logic, and MySQL database.
- Implemented task creation, assignment, categorization, deadline tracking, and status updates to improve team productivity.
- Owned the project from design through implementation, gaining experience across the stack.

EDUCATION

B.Tech, Information Technology *M. Kumarasamy College of Engineering | Aug 2023 – May 2027*

CGPA: 7.9 / 10 (till Semester VI)

Higher Secondary (HSC) *Vivekananda Higher Secondary School | June 2022 – May 2023*

Percentage: 89%

Seconadary(SSLC) *R.N.Oxford Matriculation School | June 2020-May 2021*

Percentage:100%

INTERNSHIP

Student Trainee – Technology Innovation Hub *August 2025 – April 2026 (In-Person)*

- Gained practical experience in designing and developing responsive web pages using modern front-end technologies.
- Transformed theoretical knowledge into practical implementations by developing user-friendly web interfaces.

Web Development Intern - ITtoALL *July 2025*

- Built a static multi-page website (home, about, product, contact form) using HTML and CSS.
- Gained hands-on experience with responsive design and core web development fundamentals.

CERTIFICATIONS

- ServiceNow: Certified System Administrator (CSA)
- ServiceNow: Certified Application Developer (CAD)

ACHIEVEMENTS

- Participant-SIH Hackathon 2025,Technoverse Hackathon 2026
- Presented a research paper titled "**Deep Learning-Driven Epileptic Seizure Detection using Optimized LSTM Networks**" at the 6th IEEE International Conference on IoT Based Control Networks and Intelligent Systems (ICICNIS 2025), organized by T. John Institute of Technology, Bengaluru.
